### **Independent Seed Company Rob-See-Co™ Now Offers STINE® Soybeans** *High-Yielding Soybean Genetics Offer Another Leading-Edge Option*

ELKHORN, Nebr. (June XX, 2018) - Rob-See-Co, an independent seed company located in Elkhorn, Nebr. is excited to offer STINE LibertyLink® GT27™ soybeans for the 2019 growing season. This decision was made to broaden the soybean distribution and choices that are available to Rob-See-Co producers in the never-ending quest for higher yields and tools to battle tough to control weeds. More choices from the independent company means the Rob-See-Co representatives can make better recommendations based on the individual and specific needs of each farmers.

“We are looking forward to adding these new soybean options to our roster in 2019,” said Rob Robinson, CEO of Rob-See-Co. “More choices for producers allows us access to select the best fitting and effective solution for our farmers’ fields.”

STINE has been developing some of the industry’s highest-yielding soybean genetics for nearly 40 years. Rob-See-Co will offer STINE LibertyLink GT27 soybeans. The recently commercialized LibertyLink GT27 soybean platform provides growers with the flexibility to use their choice of glyphosate- or glufosinate-based herbicide programs combined with elite genetics to provide an unmatched combination of weed control and yield.

“Soybeans are becoming an increasingly profitable option for our farmers,” said Robinson. “Adding STINE to our already robust soybean lineup allows us to extend a complete portfolio of seed to maximize yields and support success.”

## **Page Two: STINE Soybeans Now Available Through Independent Seed Company Rob-See-Co™**

Herbicide-resistant weeds are becoming more problematic across the United States. By not controlling these weeds, producers can lose up to 50 percent of their crop which is devastating to farmers. The historically high performing STINE soybeans, offered through Rob-See-Co, have built-in tolerance to glyphosate and glufosinate for outstanding flexibility in weed control.

### **About Rob-See-Co**
