NOTES

ALWAYS READ AND FOLLOW LABEL DIRECTIONS.

The only permissible use of the Seed and the parental lines used in producing the Seed is for the production of a single commercial crop of forage or grain for feeding or processing; such permissible production excludes the production of seed for planting. The Seed and the parental lines used in producing the Seed shall not be used for research (including but not limited to agronomic comparisons and yield testing), breeding, or molecular or genetic characterization. Export, resale, or transfer of the Seed or the parental lines used in producing the Seed or the progeny of the Seed is strictly prohibited, except that forage or grain may be exported solely for use in feeding or processing subject to applicable channeling requirements.
